Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the claims are allowable over the prior art of record because the closest prior art of record, specifically Young (US 5,529,933) and Ryan (US 5,460,797) fail to teach or make obvious a method for preparing a sample of fresh human whole blood using an aqueous reagent that includes a lysing agent for red blood cells, a lipoprotein for resisting lysing of white blood cells, a salt and a preservative selected from the group consisting of DU, IDU and oxazolidine and mixtures thereof. Young discloses treatment of cells with a lipoprotein followed by contact of the cells with a red blood cell lysing agent, therefore, Young does not make clear that at least the lipoprotein and the RBC lysing agent are present in a single mixture.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
